

THE RISK CHALLENGE 2022

“ Total Prizes Worth USD 3000 ”

“Creating Responsible & Impactful Companies through ESG Implementation”

The Risk Challenge International Case-Solving Competition on Risk Management is an annual event designed specifically to give undergraduate university students from around the world the opportunity to showcase their exquisite case-solving skills.

The competition will also help students keep themselves relevant to modern business practices and developments as ESG has become increasingly important in modern day business and considered as an integral part of many high-profiled companies’ strategies around the world.

Working in teams, students will be challenged to assess and solve risk management issues that modern organizations are facing.
