

# Implementing ESG: How Being Sustainable Benefits Companies

**6**  
PDUs

**12**  
PSB

Live via Zoom | Language: English

Environmental, Social, and Governance (ESG) is an important and integral part of modern businesses around the world. It helps firms navigate environmental and social risks while maintaining their integrity and accountability. ESG implementation helps firms demonstrate their positive impacts for the society which eventually create their long-term economic values.

The webinar is intended to build awareness of the importance of ESG, and serve as a learning opportunity on how to implement it.
